MARINE POLLUTION BULLETIN

**The International Journal for Marine Environmental Scientists,
Engineers, Administrators, Politicians and Lawyers.**

The **MARINE POLLUTION BULLETIN** sets out to cover all aspects of the environmental conditions of estuaries, seas and oceans. The journal welcomes news, comment, reviews, and research reports, not only on the threat of noxious substances to marine life but also on the productivity, processes and functions of the marine environment, and the effects of mankind (including management) on these. It publishes accounts of economic and legal as well as scientific aspects of marine pollution.
